Rheumatic diseases are quite common in daily practice. There are over hundreds of rheumatic diseases ranging from mild to severe life-threatening conditions. Many diseases are multi-systemic and attending physicians need a holistic approach and clinical skills, including characteristic features for diagnosis. A 1.5-hour workshop held by Thai Rheumatism Association staffs in the topic of “Diagnosis at a Glance in Rheumatic Diseases” will cover a range of essential topics and practical points for diagnosis common rheumatic diseases. It will be divided into 3 parts; (1) arthritic diseases, (2) connective tissue diseases and systemic vasculitis, and (3) rheumatic manifestations of systemic diseases. It is an interactive workshop and participants will gain knowledge and practical experience in recognition and diagnosis of illustrated cases.
