ACP International Fellowship Exchange Program - Proposal for RCPT

ACP can reserve up to two spaces for applicants from RCPT. There are two options to accomplish this:

Option #1 (RCPT prefers this option)

- RCPT can identify 1-2 fellows for the International Fellowship Exchange Program

Option #2

- RCPT can send a selected number of applications through the regular IFEP application process
- One or two spaces can be reserved for these applications (deadline August 1)

For both options:

- ACP International Council will review and approve the application(s)
- ACP will match the fellow(s) with a host in the U.S. or Canada, unless a host has already been identified by RCPT
- Timing of fellowship preferred right before the ACP Internal Medicine Meeting (March/April 2018)
- If a visa is required, ACP would provide a visa invitation letter and an acceptance agreement, but no other assistance in securing a visa
- ACP will fund the attendee registration for the ACP Internal Medicine Meeting and provide a stipend for host institution; all other funding (international and local airfare and transportation, lodging and meals) will be provided by institution in Thailand, or the individual
