The Royal College of Physicians of Thailand

The Royal College of Physicians of Thailand was founded in 1993 under the Thailand Medical Council Act (Chapter 264) for the purpose of promoting medical education and research. The College is recognized by the Ministry of Health and the Thailand Medical Council as a professional body for physicians.

The objectives of the Royal College of Physicians of Thailand are:

1. To regulate the specialty examinations for the specialty diploma in academic disciplines related to Medicine.
2. To provide the academic standards of professional practice of the specialty diploma holders, including the control of professional standards and the certification of medical practice.
3. To promote research and academic affairs in academic disciplines related to Medicine.
4. To organize annual meetings and conduct educational activities for its officers and members.
5. To develop and regulate the professional practice of the specialty diploma holders.
6. To establish a code of ethics for the specialty diploma holders.
7. To publish a journal and other educational materials.
8. To engage in other activities related to the promotion of the specialty diploma holders.
9. To promote academic excellence in Medicine.
10. To promote academic excellence in Medicine.

The College is governed by an elected Council, which is responsible for the administration of the College and the regulation of its affairs.
